

COMPANHIA DE SANEAMENTO DO PARANÁ – SANEPAR**PUBLICLY-HELD COMPANY****CVM REGISTRY nº 01862-7****CNPJ nº 76.484.013/0001-45****MATERIAL FACT**

Companhia de Saneamento do Paraná – Sanepar in compliance with the provisions of CVM instructions and continuing to disclose the Material Fact of May 4, 2021, hereby informs its shareholders, investors and the market at large that the Governor of the State of Paraná has decreed a water emergency in the State of Paraná, in view of the reduction in the volume of water available to be collected for human consumption and animal feed, caused by drought.

Instituto Água e Terra (“IAT”), in the use of its legal attributions, for granting the right to use water resources and environmental authorizations, will carry out emergency actions aimed at public supply, prioritizing the demands of service providers for this purpose.

The sanitation service providers are authorized to perform, as a mitigating action, a 24 hour rotation considered from the interruption until the resumption of supply, with a period for normalization of up to another 24 hours.

The above limits can be extrapolated in emergency maintenance situations or arising from unforeseeable circumstances and force majeure, and must be communicated to the population and inspection bodies.

Decree No. 8299, dated 08/05/2021, will remain in force for 90 days, and may be revised at any time, depending on the evolution of the situation.

Curitiba, August 6th, 2021
